Facultad Ciencias/ CAPA

Achievements/Tasks

- Building a React Website

Contact : Gloria Luzón - +34671465949

IT Trainee
Balikesir University

11/2021 - 03/2022   *Balikesir,Turkey*

I gained hands-on experience and training from researchers as I assisted them with their presentations and laboratory setups.

Freelance Front-End Web Site
Bayrampasa Therapy Vet Clinic

08/2020 - 12/2021   *Istanbul, Turkey*

I designed and developed the company's website from scratch using WordPress

SKILLS

C#   JavaScript   Node JS   Electron JS

React JS   HTML   CSS   Python   Xcode

SwiftUI   MySQL   SQL   Selenium

PERSONAL PROJECTS

Python Malware (11/2022 - 01/2023)
- I was part of a team that developed a malware using Python. I worked with Selenium framework to create a mechanism for capturing and filtering passwords from browser.

BAUNmp3 (04/2022 - 05/2022)
- I developed an MP3 player application using Electron JS as a final project for my object-oriented programming course.
- This project not only allowed me to gain experience with Electron and JavaScript, but also served as an opportunity to improve my skills in designing and implementing real applicatons.

Spotify Clone (03/2022 - 06/2022)
- I also developed a Spotify clone application using both SwiftUI and UIKit. I want to create my self opportunity to explore the world of mobile development.
